

Changes in Rent

We will not increase your rent more than once a year.

We will always give you notice of at least one month of any proposed changes in the rent.

The notification will always tell you how much the new rent is and the amount of any service charge payable.

If you are not happy with any proposed increase you have the right to refer the matter to a Rent Assessment Committee to have a market rent determined.

The Association will then charge the rent determined by the Rent Assessment Committee.
