

Transfers

We hope the property you live in now is suitable for your needs. If your circumstances change we will consider your request for a transfer. We cannot transfer everyone who wants to move because of the demand for certain types of home. We will give priority to those who most need to move.

When we decide who gets priority for a transfer we will take a number of things into consideration, including health and personal reasons and the size of your present home.

You will also need to register with your relevant local authority.
